CUT THIS OUT AND PUT IT ON YOUR FACE!

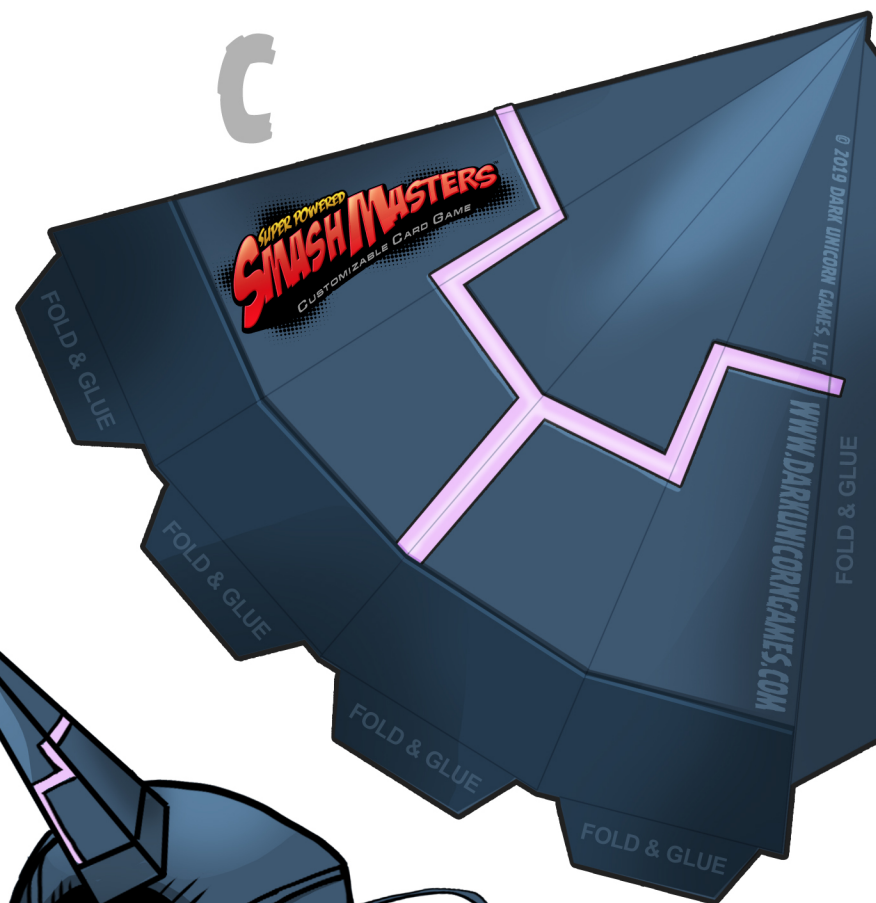

DARK UNICORN™ MASK

ASSEMBLY INSTRUCTIONS:

2 OF 2

- 1 Cut out all 3 pieces with scissors or an X-Acto knife. (Kids, get a grown-up to help. Preferably someone you know and can be trusted with sharp objects.)
- 2 Place some glue on the Mask tabs (A) and stick them to the underside of the mask as you close all 3 seams.
- 3 Fold the Nose (B) in half and fold the side tabs out. Place some glue on the tabs and stick them to the underside of the Mask (A).
- 4 Fold the Horn (C) along the faint lines so that it has 4 even sides. Then fold the long tab inward and place some glue on it. Stick it to the inside of the horn.
- 5 Fold the bottom Horn tabs (C) outward and place some glue on them. Slide the horn up through the hole in the Mask piece (A) and stick them to the underside of the mask to fasten the horn in place.
- 6 Use a hole punch to put holes on each side of the Mask (A). Tie a string or cut/fasten a rubber band to each side to hold it on your face.

DID YOU SCREW IT UP? NO PROBLEM! GET ANOTHER ONE AT:
